

Form 99

Republican Campaign Committee of New Mexico
C00020818

Re: FEC Letter dated August 22, 2007

For the period of time in question, this committee had no staff employees who spent any amount of time on FEA or other activity in connection with a federal election. Instead, these individuals have been spending their time on state candidate recruitment and training. Therefore, the party was permitted to pay these employees in full from non-federal funds.

However, the party monitors the activities of its employees very carefully with respect to this issue and will adjust their payroll status as necessary.
